FIG. 5

FIG. 1 is a perspective view of a circular device 10, such as a camera lens or optical filter, showing its internal structure. The device has a central circular opening 21 surrounded by a ring 23. The outer ring 24 is divided into segments 16 and 17. The inner ring 22 is divided into segments 40 and 41. The device is mounted on a base 14. The X and Y axes are indicated by arrows at the top and bottom.
